HTC Announces Exclusive Triton Deal

Fair Haven, MI – HTC has announced that as of June 1, 2009 it has formally reached a deal with GMC Group Holdings Pty. Ltd. Of East Melbourne, Victoria Australia. Under terms of the agreement HTC will represent and hold the exclusive distribution rights for the Triton power tool and woodworking product line in the United States and Canada.

According to HTC's General Manager Mark Cross, "Triton has been a leader in premium tool manufacturing for over a quarter century and have earned a global reputation for technological innovation. Together with HTC's core products of woodworking accessories and our Portamate brand's vast consumer appeal, we see Triton power tools as a perfect compliment to broaden our brand portfolio."

Triton offers over 35 unique products overseas and exports products to the United Kingdom, Japan, New Zealand, South Africa, and Europe. Triton has won numerous awards for its premium quality tools including ISO-9001 certification in 1994. Triton tools are currently carried by over 600 retail locations in Canada and over 250 locations in the US.

Additional product information is available at www.Triton.com.au. Should you have any inquiries about the Triton line or to become a dealer, please call 800-624-2027.

- Background -

HTC Products was founded in 1980 and is best known as the company that put the work shop on wheels. As the originator of custom engineered mobility bases for heavy wood and metal working machinery, HTC's products provided space saving practicality to every professional shop and school. Today HTC's product line is full of material handling and innovative woodworking or jobsite accessories that are available nationwide and in Canada. In 1985 HTC developed the Portamate brand to reach retail consumers and Do-It-Yourselfers with products that are sold through a network of distributors and retailers, as well as internet and mail order companies.
